

Innovative and Secure Payment Technology

RBC Merchant Services offers the latest payment technology to meet your business needs.

Tap to Pay Contactless Payment Acceptance

RBC Merchant Services provides secure contactless payment acceptance which allows your business to accept contactless-enabled payment cards.

Fast, simple, secure and convenient...

Contactless payment transactions operate the same as other transactions at the point-of-sale device with the difference being that your customer will simply Tap to Pay for their purchase instead of inserting or swiping the payment card.

There are many benefits to contactless payment acceptance:

- Fast, simple, secure and convenient way to pay
- Efficiently reduce the wait times for your customers
- Excellent way to pay for small-ticket items

Ideal for businesses where check-out speed is important e.g. Supermarkets, Convenience Stores, Fast Food Restaurants, Gas Stations and many more...

Chip and PIN Payment Acceptance

RBC Merchant Services provides secure Chip and PIN payment acceptance which allows your business to accept chip-enabled payment cards.

Chip technology is a global standard for credit and debit card payments. This technology allows a secure chip embedded in the payment card to communicate with the point-of-sale device via a unique dynamic code that is generated to complete the transaction.

This provides both you the merchant and your customers an enhanced level of security and protection against fraud and counterfeit activity as compared to using a traditional magnetic stripe payment card.

To sign up for RBC Merchant Services today, contact our team at +599 9 763-8438 in Curaçao or +599 717-4500 in Bonaire or visit your nearest RBC Royal Bank branch.
